

THE NEXT CHAPTER

We've outgrown how we *work*.

Where we are, where we're going, and the new operating model we're building together — One Vantage.

Hosted by the leadership team
Recording & slides shared after

Growth broke the *seams*.

In two years we doubled the team and the surface area of the work. We adapted by adding tools and processes on top of each other. It worked — until the coordination cost started outweighing the work itself.

2.4x

larger team than 24 months ago

11

tools doing roughly the same job

~40%

of a week spent re-aligning, not building

6

competing “sources of truth”

INTRODUCING

One Vantage

One platform, one playbook, one team. The way we plan, build, and ship — finally in a single place.

One platform

One playbook

One team

Three shifts in how we *operate*

01

From projects

To products

We stop shipping and forgetting.
Teams own outcomes end to end —
discovery through to the metric it
moves.

02

From handoffs

To ownership

Fewer tickets thrown over walls.
Every piece of work has a clear DRI
and a decision log anyone can read.

03

From many tools

To one platform

Plan, build, and ship in one place.
Context travels with the work instead
of living in someone's inbox.

What *better* looks like

AREA	TODAY	WITH ONE VANTAGE
Planning	Re-typed across three docs every quarter	One living plan that rolls up automatically
Visibility	“Who’s working on this?” in five Slack threads	Status visible to anyone, in one view
Decisions	Made in DMs, lost by Friday	Logged with the work, searchable later
Handoffs	A ticket, a wait, a follow-up nudge	Shared context, owned by one DRI

Phased, not *overnight*

A measured rollout — pilots first, the whole company next, and the old tools retired last.

How we'll know it's *working*

The headline outcome

1 platform

replacing the 11 tools we juggle today — one place the whole company plans and ships in.

2 days

given back per person, per month

90%

of teams onboarded by Q4

<1 wk

from idea to staged work

1

source of truth, trusted by all

A lighter *cadence*

Four rituals replace a calendar full of status meetings. Everything else is async, in the platform.

WEEKLY

Monday demo

Show progress, not slides.
20 minutes, whole team.

FORTNIGHTLY

Planning

Re-prioritise against the
living plan, together.

MONTHLY

Metrics review

Did the work move the
number? Honest, no spin.

QUARTERLY

Retro

What to keep, drop, and
change about how we work.

Build it *with us*

This works only if it's ours. Here are four ways to shape One Vantage from day one.

01 Join a pilot team

Shape the playbook from real work. Sign-ups open this week.

02 Drop into office hours

Thursdays, 2–3pm. No question too small.

03 Follow #one-vantage

Updates, demos, and decisions in the open.

04 Send unfiltered feedback

The feedback form is anonymous and read weekly.

OVER TO YOU

Questions?

Ask anything now, or anytime in #one-vantage. The recording and these slides go out right after.
